

LOGITECH HEADSETS FOR EDUCATION

The Best Choice for Students

As flipped classroom approaches and individualized learning continues to become more prevalent in today's schools, it's imperative that students are equipped with the right tools to stay focused and engaged while learning digitally.

Providing students with headsets is critical to support their focus, retention, and confidence. Logitech has been fine-tuning headsets for over forty years and we've created a variety of options designed specifically to drive student success.

LOGITECH HEADSETS:

- Allow students to hear their teachers, peers, and audio content clearly with superior sound quality.
- Ensure students' voices are crystal clear when collaborating virtually and using applications that require speaking such as language learning.
- Feature rugged durability to withstand drops, spills, and daily wear and tear and cleaning.
- Are available in a range of options to work seamlessly with the various devices your students use, including Chromebook, iPad, and Windows devices.
- Enable quick and simple deployment and setup thanks to packaging that supports asset tagging and plug-and-play compatibility.
- Are backed by an extended warranty exclusive to schools.

- » Certified Works With Chromebook

83%

of middle-school students surveyed by Logitech felt it was easier to focus with less background noise thanks to a Logitech headset.¹

Students between the age of 5 and 14 are still developing cognitive auditory processing skills and, therefore, **cannot decipher the full meaning of content if it's not heard correctly.**²
