

PRO TOOLS FOR PRO WORK LOGITECH ADVANCED PORTFOLIO

The advanced portfolio includes top-of-the-line products for personal workspaces. Most users of this solution work in specialized roles such as developers, analysts, and creatives. They need productivity tools that give them a high degree of control and precision, with innovations that enable them to streamline workflows and achieve excellence.

ABOUT ADVANCED USERS

Skilled professionals with highly specialized workflow needs. They seek technologies that enable them to optimize performance.

Key Challenges:

- **Poor audio/video quality** with low-cost headsets and webcams leads to poor meeting experiences; **lower-quality keyboards and mice** slow down typing, tracking, and clicks.
- **Hard to focus and be productive in video meetings** due to noise and nearby activity.
- With a monitor, laptop, USB peripherals, chargers, and cables, **a desk can become cluttered**. This may lead to distractions and reduce productivity.
- **Inability to customize devices** for specialized needs leads to repetitive tasks and lower productivity.

WHY SELECT ADVANCED PORTFOLIO?

- ✓ **Perform at your best with high-quality solutions.** Look and sound great with 4K ultra HD resolution, AI image enhancement, and noise-canceling mics for a more productive video meeting. Work faster and more precisely with 1,000-lines-per-second scrolling powered by the innovative MagSpeed wheel, and track on virtually any surface (even glass¹) with 8,000 DPI Darkfield tracking.
- ✓ **Focus on the task at hand** with Quiet Click technology², quiet Perfect Stroke keys, and hybrid active noise cancellation.
- ✓ **Streamline the desktop for a productive workspace.** Cleanly connect your desktop devices with an all-in-one USB-C docking station. Use one mouse and keyboard with up to 3 devices and seamlessly switch between them with the Easy-Switch button.
- ✓ **Optimize the experience** with customizations with Logi Tune³ and Logi Options+⁴. Set tracking speed, customize buttons and key actions, and use predefined app-specific customizations to take control of your workflow effortlessly.

OUR FEATURED SOLUTION

MX KEYS COMBO FOR BUSINESS | GEN 2

MX Master 3S for Business and MX Keys for Business combo with palm rest. Enjoy Quiet Click technology and 8,000 dpi tracking for enhanced performance.
