EXPANDING THE POWER OF EDUCATION: LOGITECH MICE
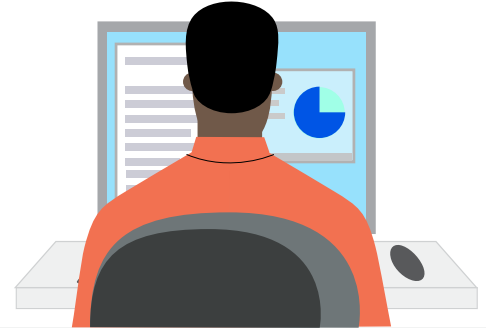

## #1 Selling Mouse Brand in Education

logitech

For Teachers:

- Increases speed for administrative tasks.
- Allows remote control of the PC while showing students lessons from a whiteboard or document camera.
- Provides optimal ergonomic setup.

- Leverages Logitech Spotlight for Mouse to enhance learning engagement and focus.
- Boosts productivity when navigating multiple tabs and apps.

For Students:

- Fits ideally into the many education programs designed with mouse use in mind.

- Supports younger students whose fine motors skillsare still developing, potentially making a trackpad difficult and slow to use.
- Provides healthy ergonomic setup for developing hands and wrists.
- Allows students to complete tasks in their learning apps faster.

A few changes to your class can make learning accessible and fun for all students—regardless of age, learning style, or location. The right tools can break barriers, allowing students to collaborate without distraction, so nourishing educational experiences are always within reach.
